

Interactive comment on “Relationships between regional coastal land cover distributions and elevation reveal data uncertainty in a sea-level rise impacts model” by Erika E. Lentz et al.

Anonymous Referee #1

Received and published: 7 January 2019

I very well written paper with clear conclusions. However, in some places the text is a bit terse/too condensed for a relative non-expert on this type of modelling to follow. A suggestion is to expand on some of the sentences a bit, esp. where I put comments. Minor comments are attached.
